

AN ESSENTIAL PART OF A  
**WELL-BALANCED**  
BUILDING

**Green building is transforming how we think about the built environment and lighting is a critical component.** Prescolite is doing our part by offering a steady stream of innovative luminaires that compliment sustainable design. Prescolite's family of LED luminaires come in a wide variety of configurations that balance aesthetics with performance, and are an exceptional example of how we can contribute to the bottom line.

**Contact your local Prescolite representative or visit [www.prescolite.com](http://www.prescolite.com) to learn how Prescolite luminaires can compliment your sustainable projects.**
